Subject: FW: General Electric Meeting 1/9/08

Hi Peter,

Hope all is well. I have had some great success lately with your calls including Clorox, Dole, Del Monte, and Cisco. I have communicated this to Todd and the rest of the team because I think your service is very valuable.

This one below, is really the only call out of the last 6 that has decided not to go through with the meeting. If you think there is anything you can do to re-kindle the fire. Otherwise we'll put them on the "wait list"

Thanks again for all your help – it truly has made a big difference out here.

Gary Evans
